Our school, Gazi Primary School was founded in 1947. You can see a beautiful view of the sea from the school and a nice view of nature at the back of the school.
The school building consists of four floors and 13 classrooms. There isn’t a kindergarten classroom in our school.
We have got 348 pupils in our school. Most of the students come to school from villages around. They come by buses provided by government. Our lessons start at 08:30 in the morning and finish at 14:20 in the afternoon. The children take compulsory education from first grade to eight grade.
There are eighteen teachers in our school.
The people of the town usually earn their living by farming and fishing. They have a low educational and socio-economical level. These circumstances of the families affect our students’ education process in a negative way.
Besides the academic success, our school realizes many social activities. For example; drama, social trips, folk dances, chess tournaments, sportive activities (table tennis, volleyball, football tournaments), art and craft exhibitions, poetry night.

THE VISIT OF THE ORDU FOTBALL CLUB TO OUR SCHOOL
As for European Union Project; before this project that we are studying together at the moment (traditional children’s games)

We participated in an e-twinning project about preparing an illustrated dictionary and we think that we have been successful in completing it.

We are pleased to coordinate this project with you and we are sure; we will accomplish it successfully and we will have a great time and learn lots of things from each other.
